Character Background

You are a brain in a jar. You were once leader of a race of Gorilla-like creatures. A race of robotic creatures called Wheelers attacked and nearly wiped out your entire race. You were killed by a rogue robot but a scientist harvested your brain and placed it in a jar.

Goals

You do not trust any robot especially ones with wheels. You speak Kobold somewhat correctly. Sometimes the subject and the verb to the end of the sentence you send.

- Prevent B.E.E.R.[#23] from building new robots
- Escape the plane alive

Enemies

B.E.E.R.[#23] wants to leave a legacy of autonomous wheeled robots. For the sake of your race you cannot let this happen.

Allies

Puscag[#22] can limit the access to beer, the fuel B.E.E.R.[#23] needs to complete its robots.

Items

Probe

Tractor Beam

Special Abilities

Beam Me Up: You can teleport short distances. You will drop anything you are carrying when you do. This costs one card.

Tractor Beam: You can shoot a beam and pull a medium-size object, like a Kobold for example, to you. This costs one card.

Interface with Technology: You have a probe that allows you to interface with new technology. This costs one card.
